WHAT? CPC is sending a team to serve in the name of Jesus Christ with World Vision. We will continue the work begun by our high school team in July 2011. World Vision is a Christian humanitarian organization dedicated to tackling the causes of poverty and injustice. Teams do light construction while also forming strong relationships with homeowners and members of the community. Lodging, meals and evening meetings held at the 4-H Center near Grafton.

Why Volunteer As A Family?

Research has shown that volunteering as a family:

- Helps families learn to love and serve their neighbor in need
- Demonstrates positive role models and passes family values to children
- Provides new learning experiences for both children and adults
- Increases interpersonal communication and problem-solving abilities
- Provides quality time for the family to work and worship together
