WHAT?

CPC is sending a team to serve in the name of Jesus Christ in rural West Virginia. We will continue the work begun by our partnership in 2011 with World Vision. A Christian humanitarian organization, World Vision is dedicated to tackling the causes of poverty and injustice. Our team will work in the warehouse to sort donations and do a small-scale home rehab project in the community. Lodging is at the Camp Barbour 4-H Center.

Why Volunteer As A Family?

Research has shown that volunteering as a family:

- Demonstrates positive role models and passes family values to children
- Provides new learning experiences for both children and adults
- Increases interpersonal communication and problem-solving abilities
- Provides quality time for the family to work and worship together

Name: _____ (please print)

Additional family members participating (name, birthday, HS grad year)

_____ home street address
